Signature

Honour statement

Name and surname of the doctoral student:

I declare that I have written my dissertation thesis independently and consistently quoted the sources in the submitted work.

Specification of the author's share³:

Prague, date

Signature

³ If some parts of the dissertation originated in co-authorship with other persons, the doctoral student verbally specifies his/her share.

Co-author means a person who has contributed creatively to the creation of a dissertation, for example by designing and conducting studies and experiments, by contributing to analysis, interpretation, theoretical data processing or modelling, participating in the design and implementation of experimental devices, or participating in writing the dissertation.

Otherwise, the doctoral student will state: "The presented dissertation and the presented results were created without the co-authorship of others."
